2. The Amendment filed 29 October 2002 has been received and entered in full.

Claim Objections

7. Claims are objected to because of the following informalities: said claims depend from a rejected claim. Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

8. Claims 36 and 44 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

9. Neither the Specification nor the prior art unambiguously defines the phrases “first level” and “second elevated level”. It is not clear whether this refers to a re-measurement of the same patient at two different times, the difference between control and patient measurements, different populations, or differences in the time of measurement.

Summary

10. No claims are allowed.
